

Parking Led light

The parking Led light are widely used in residential areas, parking lots, factories, airports, enterprises, institutions and other entrances and exits to guide the passage of pedestrians and vehicles

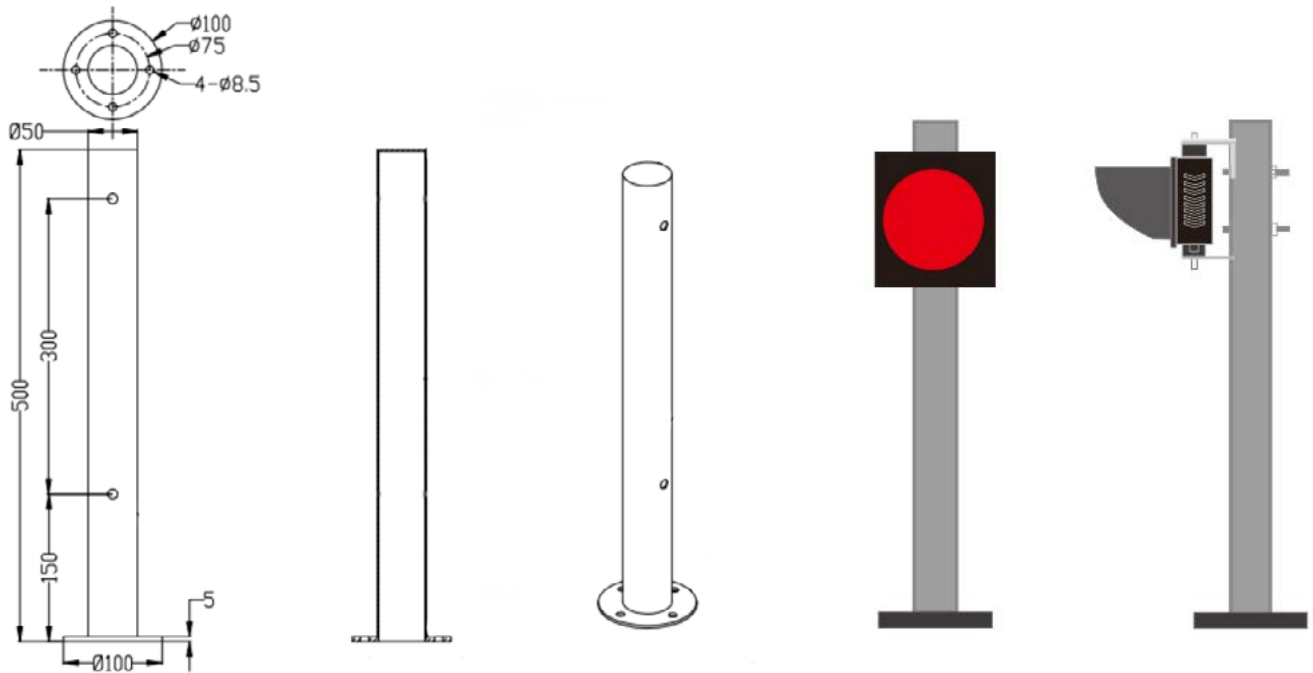

Features

low power consumption large viewing angle, high brightness, long viewing distance and long working time high protection level. Impact resistance, aging resistance, corrosion resistance waterproof. Easy to install.

Specifications

Name	Parking LED light
LED number	180 pcs
LED color	Red, Green
Red wavelength	620-625NM
Green wavelength	500-525NM
Single LED light intensity (mcd)	3850-5545mcd
Working voltage	DC12V
LED Angle	Horizontal -30°, Vertical -30°
Working current	≤250mA
Dimensions	250*250*100mm
Working temperature	-40°C ~ +65°C
Shell color	Black
Visible distance	≥300m
Power (W)	≤3
Working humidity	≤95%
Weight	2KG
Packing size	400 * 300 * 200mm
Protection class	IP65
